Re: Case No. 96-459

Gentlemen:

Please be advised that I have been retained by Lucile Stephens, 2040 Burlington Pike, Burlington, Kentucky in regard to the application by GTE Mobilnet Incorporated for a Certificate of Public Convenience and Necessity to construct and operate a personal communications service facility which includes a 125' monopole with attached antennas extending upwards for a total height of 135' and an equipment cabinet to be located at the point Old Ky Route 18 dead ends into Route 237.

Mrs. Stephens strenuously objects to the placement of the monopole and the equipment cabinet in that area. Her objections are based upon the fact that her home is located at the intersection of Ky. 18 and 237. In addition, there is a park, two schools, and a church located within very close proximity of the intersection. Mrs. Stephens' and the safety of the children who attend the schools and play areas would be sacrificed for the profit of GTE Mobilnet Incorporated should the application be granted. Certainly, there must be a better location for the monopole and the equipment cabinet than at this intersection.

Please advise Mrs. Stephens of the date of any public hearing on this matter. Address all correspondence to this office.

Very truly yours,

Anne P. McBee
